INDEPENDENT AUDITOR'S REPORT

Board of Supervisors Penn Township Perry County, Pennsylvania

We have audited the accompanying modified cash basis financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Penn Township, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

OPINIONS

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Penn Township, as of December 31, 2019 and the respective changes in modified cash basis financial position for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

BASIS OF ACCOUNTING

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

OTHER MATTERS

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Penn Township's basic financial statements. The budgetary comparison schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary comparison schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

Penn Township, Perry County is a second-class Township located in Central Pennsylvania, managed by three elected supervisors. The financial statements of the reporting entity include those of the primary government of Penn Township, Perry County.

The Governmental Accounting Standards Board (GASB) Statement defines the criteria used to determine the composition of the reporting entity. This standard requires that the reporting entity include (1) the primary government, (2) organizations for which the primary government is financially accountable, (3) organizations that are fiscally dependent on the primary government and a financial benefit or burden exists, and (4) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and with it can impose its will on the organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for the governmental organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization. A financial benefit or burden relationship exists if the primary government (a) is entitled to the organization's resources; (b) is legally obligated or has otherwise assumed the obligation in some manner for the debt of the organization; or (c) is obligated in some manner for the debt of the organization.

Some organizations are included as component units because of their fiscal dependency on the primary government. An organization is fiscally dependent on the primary government if it is unable to adopt its budget, levy taxes, or set rates or charges, or issue bonded debt without approval by the primary government.

The Penn Township Municipal Authority is an operating authority which owns and operates the water and sewer systems in the Township. The Authority is a component unit because the Township exercises financial accountability over it and has a financial burden relationship (appoints the Authority Board and guarantees its debt), and the Township's management has elected to include the Authority's financial position and results of operations in the accompanying financial statements as a discretely presented component unit, which is in accordance with generally accepted accounting principles. The financial statements of the Municipal Authority are available at the Authority office at 100 Municipal Building Road, Duncannon, PA 17020.

Basis of Presentation

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the reporting government as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

Fund Financial Statements

The accounts of the Township are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped as follows:

Governmental Funds

Governmental funds are those through which most governmental functions of the Township are financed. The Township reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the Township. It is utilized to account for all financial transactions not accounted for or required to be accounted for in another fund. This is a budgeted fund, and any unassigned fund balances are considered as resources available for use.

Capital Reserve Fund – The Capital Reserve Fund is used to account for funds set aside for future capital purchases.

Special Revenue Funds – Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

The *Highway Aid Fund* is presented as a major special revenue fund, and accounts for the proceeds and disposition of state liquid fuels entitlements that are legally restricted to expenditures for specific purposes, primarily building and maintaining local roads and bridges.

The *Fire Tax Fund* is presented as a major special revenue fund, and accounts for the transactions generated by fire protection tax remittances by residents of the Township.

The *Parks and Recreation Fund* is presented as a non-major special revenue fund, and accounts for the transactions generated by recreational activities supported by the Township.

Basis of Presentation (Continued)

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the Township under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the Township's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Township has no investment trust funds, private purpose trust funds, or agency funds.

Pension Trust Fund – The Pension Trust Fund is used to account for the accumulation of resources for pension benefit payments to qualified non-uniformed and uniformed (police) employees.

Measurement Focus

In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus, within the limitations of the modified cash basis of accounting, as defined in the "basis of accounting" section that follows.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus, as applied to the modified cash basis of accounting, is used as appropriate:

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on the balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Fiduciary funds are reported using the economic resources measurement focus.

Basis of Accounting

The government-wide and the fund financial statements are presented using a modified cash basis of accounting. This basis recognizes assets, liabilities, net position/fund balance, revenues, and expenditures/expenses when they result from cash transactions with the exception of recording capital assets and a provision for depreciation expense and liabilities associated with the purchase of capital assets in the government-wide statements. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of this modified cash basis of accounting, certain assets and related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

Cash and Cash Equivalents/Investments

Cash and cash equivalents includes all demand deposits, petty cash, savings, money market accounts, certificates of deposit with an original maturity of three months or less. Investments include certificates of deposit with an original maturity of greater than three months. Certificates of deposit are stated at face value which approximates fair value.

The Township invests in funds with the Pennsylvania Local Government Investment Trust (PLGIT). PLGIT operates and is authorized under the Intergovernmental Cooperation Act of 1972. Investments in these funds have daily liquidity and are valued at amortized cost which equals market value.

These funds invest in federal securities backed by the full faith and credit of the United States Government, in agencies, instrumentalities and subdivisions of the Commonwealth of Pennsylvania and backed by the full faith and credit of the Commonwealth, and certificates of deposit which are insured by the Federal Deposit Insurance Corporation or which are collateralized as provided by law of Act 72 of 1971.

Pension Investments

Investments and investment pools are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Managed funds related to the retirement systems and investments in external investment pools not listed on an established market are reported at estimated fair value as determined by the respective fund managers based on quoted sales prices of the underlying securities. Unrealized appreciation or depreciation due to changes in fair value of such investments is recognized annually.

Budgets

Penn Township annually adopts calendar year budgets for its general fund, parks and recreation fund, capital reserve fund, highway aid fund and fire tax fund. As changes are made to the budget during the fiscal year, amendments are proposed and approved by the Board of Supervisors.

Taxes

The Township collects real estate, occupation, per capita, earned income, emergency municipal services, and fire protection taxes and records them at gross amounts collected with commissions paid and recorded as an expenditure. Real estate transfer and delinquent taxes are recorded at the net amount received from the collecting agency after deduction for fees and expenditures.

Taxes are recorded when they are received, with no adjustment for taxes anticipated to be received under the modified cash basis.

Capital Assets

General capital assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not capitalized in the governmental fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The Township maintains a capitalization threshold of \$1,500. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Years
Buildings and improvements	15 - 40
Machinery, furniture, and equipment	5 - 15
Infrastructure (roads)	20
Automobiles	10

Net Position

Net position is comprised of the various net earnings from operating income, nonoperating revenues and expenses, and capital contributions. Net position is classified in the following components:

Net Investment in Capital Assets – This component consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, accounts payable or other borrowings that are attributable to the acquisition, construction or improvement of those capital assets.

Restricted Net Position – This category of net position has constraints placed on the use by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (2) law through constitutional provisions or enabling legislation.

As of December 31, 2019, restricted net position in governmental activities consists of the following:

Restricted for highway aid	\$ 189,587
Restricted for fire tax	 211,278
	\$ 400,865

Unrestricted Net Position – This component consists of all other net position that does not meet the definition of "restricted" or "net investment in capital assets".

Net Position (Continued)

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted-net position, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Township's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Balance - Governmental Funds

Governmental funds classify fund balance based on the relative strength of the spending constraints placed on the purpose for which resources can be used. The classifications are as follows:

Nonspendable: This classification includes amounts that cannot be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact. This classification includes items such as prepaid amounts, inventories, and long-term amount of loans and notes receivable. This also includes the corpus (or principal) of permanent funds.

Restricted: This classification includes amounts where the constraints placed on the use of resources are either (1) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the government to assess, levy, change or mandate payment and includes a legally enforceable requirement on the use of these funds.

Committed: This classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Township's highest level of decision-making authority. This formal action is in the form of a resolution which is made by the Board of Supervisors. Once an amount is committed, it cannot be used for any other purpose unless changed by the same type of formal action used to initially constrain the funds.

Assigned: This classification includes spendable amounts that are reported in governmental funds other than in the General Fund, that are neither restricted nor committed, and amounts in the General Fund that are intended to be used for a specific purpose. The intent of an assigned fund balance should be expressed by either the Board of Supervisors, or a subordinate high-level body, such as the Secretary/Treasurer that is authorized to assign amounts to be used for specific purposes. The Board of Supervisors has the authority to make assignments of fund balance. Thus, these assignments can only be made or changed with formal action by the Board of Supervisors. The assignment of fund balance cannot result in a negative unassigned fund balance.

Fund Balance - Governmental Funds (Continued)

Unassigned: This classification represents the portion of a spendable fund balance that has not been categorized as restricted, committed, or assigned. The general fund is the only fund which would include a positive unassigned fund balance as all other fund types must categorize amounts within the other classifications. A negative unassigned fund balance may occur in any fund when there is an over expenditure of restricted or committed fund balance. In this case, any assigned fund balance (and unassigned fund balance in the general fund) would be eliminated prior to reporting a negative unassigned fund balance.

Fund Balance Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. The Township does not currently have a policy to indicate in which order unrestricted fund balance is considered spent, therefore, by default, the order is as follows: committed, assigned, unassigned.

Interfund Activity

Advances between funds are accounted for in the appropriate interfund receivable and payable accounts. Advances between funds which are not expected to be repaid are accounted for as transfers. Interfund balances and transactions are eliminated in the government-wide financial statements.

Exchange transactions, if any, between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting used by the Township requires management to make estimates and assumptions that affect certain reported amounts and disclosures (such as estimated useful lives in determining depreciation expense). Accordingly, actual results could differ from those estimates.

Program Revenues

In the Statement of Activities, modified cash basis revenues that are derived directly from each activity or from parties outside the Township's taxpayers are reported as program revenues. The Township has the following program revenues in each activity:

General Government Licenses and permits, rent and cable franchise

fees

Public Safety Fine and penalty revenue, fire relief funds,

reimbursement for shared service

arrangements and grants

Public Works Commercial vehicle and gasoline excise tax

shared by the state

Culture and Recreation Rental Income

All other governmental revenues are reported as general revenues. All taxes are classified as general revenues even if restricted for a specific purpose.

NOTE 2 CASH AND CASH EQUIVALENTS AND INVESTMENTS

Section 7.1 of the Pennsylvania Municipal Authorities Act and Act 10 of 2016 defines allowable investments for authorities, which are summarized as follows:

- United States Treasury Bills.
- > Short-term obligations of the United States Government or its agencies.
- Deposits in savings accounts or time deposits or share accounts of institutions insured by the Federal Deposit Insurance Corporation (FDIC) or the National Credit Union Share Insurance Fund to the extent that such accounts are so insured, and, for any amounts above the insured maximum, provided that approved collateral as provided by law therefore shall be pledged by the depository.
- ➤ Obligations of the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the respective government entity.
- ➤ Shares of an investment company restricted under the Investment Company Act of 1940.
- ➤ Obligations, participations or other instruments of any Federal agency, instrumentality, or United States government-sponsored enterprise if the debt obligations are rated at least "A" or its equivalent.
- ➤ Commercial paper issued by corporations or other business entities organized in accordance with federal or state law, with a maturity not to exceed 270 days.
- Bills of exchange or time drafts drawn on and accepted by a commercial bank, otherwise knowns as bankers' acceptances, if the bankers' acceptances do not exceed 180 days maturity.
- Negotiable certificates of deposit or other evidence of deposit, with a remaining maturity of three years or less.

NOTE 2 CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

Act 72 of 1971, as amended, is an act standardizing the procedures for pledges of assets to secure deposits of public funds with banking institutions pursuant to other laws; establishing a standard rule for the types, amounts and valuations of assets eligible to be used as collateral for deposits of public funds; permitting assets to be pledged against deposits on a pooled basis and authorizing the appointment of custodians to act as the pledger of the assets.

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Township's deposits may not be returned to it. The Township does not have a written policy for custodial credit risk. As of December 31, 2019, \$ 34,806 of the Township's bank balance (including certificates of deposit) of \$ 488,400 was exposed to custodial credit risk and collateralized with securities held by the pledging banks trust department, not in the Township's name.

Credit Risk - Investments

The Township's cash equivalent investments are held with a state investment pool, Pennsylvania Local Government Investment Trust (PLGIT). PLGIT operates similar to a money market fund and seeks to maintain a stable net asset value of \$ 1 per share. At December 31, 2019, the Township held \$ 1,014,705 in the PLGIT-Class portfolio. PLGIT portfolio funds are invested in the United States Treasury bills; obligations, participations, or other instruments of any Federal agency, instrumentality or United States government-sponsored enterprise; deposits in savings accounts or time deposits or share accounts of institutions insured by the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund; obligations guaranteed or insured by the United States of America, obligations of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the Commonwealth; and repurchase agreements involving the United States Government and agency obligations.

Investments in PLGIT are subject to income, market and credit risk related to the potential for decline in current income, the potential for decline in market value and the potential that an issuer of securities held in the investment portfolios of the fund would fail to make timely payments of principal and interest payments.

The Township does not have a formal written investment policy that limits its investment choices to certain credit ratings. As of December 31, 2019, the Township's investment in PLGIT were rated AAAm by Standard and Poor's Investor Services.

NOTE 2 CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

PLGIT is not registered with the Securities and Exchange Commission (SEC); however, PLGIT follows investment procedures similar to those followed by SEC registered money market funds. Portfolios are valued using the net asset value per share. The net asset value per share is computed by dividing the total value of the securities and other assets of the portfolio less liabilities, by the outstanding shares of the portfolio.

The Township has no limitations or restrictions on withdrawals on accounts held at PLGIT.

Pension Investments

	Credit Quality		
	Rating	Maturity	Balance
Mutual Funds - Pension	(A)	N/A	\$ 626,113

(A) The Township's investments in the pension funds consist of mutual funds. The funds are considered "in-house" funds by the investment company and are not reviewed by an outside rating service and thus, there is no credit quality rating to disclose.

The remaining investments held by the Township in the governmental funds consist of certificates of deposit at local financial institutions. These are considered deposits for purposes of the disclosures in this footnote.

Investments - Fair Value Measurements

Generally accepted accounting principles define fair value, describe a framework for measuring fair value, and require disclosure about fair value measurements. Recurring fair value measurements are those that GASB Statements require or permit in the statement of net position at the end of each reporting period. The established framework includes a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the assets or liabilities fall within different levels of the hierarchy, the classification is based on the lowest level input that is significant to the fair value measurement of the asset or liability. Classification of assets and liabilities within the hierarchy considers the markets in which the assets and liabilities are traded and reliability and transparency of the assumptions used to determine fair value.

NOTE 2 CASH AND INVESTMENTS (CONTINUED)

Investments - Fair Value Measurements (Continued)

The hierarchy requires the use of observable market data when available. The levels of the hierarchy and those investments included in each are as follows:

Level 1 – Represented by quoted prices available in an active market. Level 1 securities include highly liquid government bonds, treasury securities, mortgage products and exchange traded equities and mutual funds.

Level 2 – Represented by assets and liabilities similar to Level 1 where quoted prices are not available, but are observable, either directly or indirectly through corroboration with observable market data, such as quoted prices for similar securities and quoted prices in inactive markets and estimated using pricing models or discounted cash flows. Level 2 securities would include U.S. agency securities, mortgage-backed agency securities, obligations of states, and political subdivisions and certain corporate, asset backed securities, swap agreements, and life insurance contracts.

Level 3 - Represented by financial instruments where there is limited activity or unobservable market prices and pricing models significant to determining the fair value measurement include the reporting entity's own assumptions about the market risk. Level 3 securities would include hedge funds, private equity securities, and those with internally developed values.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for instruments measured at fair value on the statement of net position, as well as the general classifications of such instruments pursuant to the valuation hierarchy.

Mutual Funds - Pension Investments

Mutual funds listed on a national market or exchange are purchased by Nationwide Trust on a daily basis. Investors (the Township) then purchase units of investments through the Trust. These units are made up of a portion of the pools of mutual funds held by the Trust. The unit value is determined by the price of the underlying mutual funds and other factors which are recalculated daily.

The following table sets forth by level within the fair value hierarchy, the financial assets that were accounted for at fair value on a recurring basis as of December 31, 2019:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pension investments:				_
Mutual funds	\$ 626,113	\$ -	\$ 626,113	\$ -

NOTE 3 CAPITAL ASSETS

Capital asset activity resulting from modified cash basis transactions in 2019 was as follows:

	Balance at January 1, 2019	Additions	Retirements	Balance at December 31, 2019
Governmental Activities:	· · · · · · · · · · · · · · · · · · ·			•

		\$	27,295	\$	74,452	\$	(20,250)	\$	81,497	\$	20,629	\$	60,868

Capital Lease Payable

- (A) **Vehicle lease** The Township has entered into a lease for the purchase of a pickup truck. The lease term is 4 years at the end of which the Township will own the vehicle. The lease calls for an annual payment of \$ 16,912 which is allocated between principal and interest. The interest rate is 5.95%. This lease was paid off during the year.
- (B) **Skid-steer lease** The Township has entered into a lease for the purchase of a skid-steer and trailer. The lease term is 3 years at the end of which the Township will own the equipment. The lease calls for an annual payment of \$ 7,347 which is allocated between principal and interest.
- (C) **Backhoe lease** The Township has entered into a lease for the purchase of a backhoe. The lease term is 5 years at the end of which the Township will own the equipment. The lease calls for an annual payment of \$ 17,004 which is allocated between principal and interest.

Interest paid on the capital leases was \$1,873 in 2019. At December 31, 2019, the cost of the leased assets was \$183,853 and accumulated depreciation was \$36,909.

NOTE 4 LONG-TERM LIABILITIES (CONTINUED)

The following is a schedule by years in the aggregate of future minimum capital lease principal and interest payments required at December 31, 2019.

	Skid-stee	r lease	Backh	oe lease	
	Principal	Interest	Principal	Interest	Total
2020	7,045	270	13,584	3,420	24,319
2021	-	-	14,208	2,796	17,004
2022	-	-	14,860	2,144	17,004
2023	-	-	15,543	1,461	17,004
2024			16,257	747	17,004
	\$ 7,045	\$ 270	\$ 74,452	\$ 10,568	\$ 92,335

NOTE 5 AUTHORITY DEBT/GUARANTEE AGREEMENTS

Notes payable for Penn Township Municipal Authority at December 31, 2019 and the changes in long-term debt during the year then ended are as follows:

		E	Beginning				Ending	(Current	I	ong-term
		Balance Additions		Reductions		Balance	lance Portio		Portion		
(A)	PENNVEST note	\$	255,106	\$ -	\$	(84,187)	\$ 170,919	\$	85,033	\$	85,886
(B) (C)	PENNVEST note Duncannon		4,183,623	-		(204,885)	3,978,738		206,944		3,771,794
	Borough note		36,729	 -		(2,459)	 34,270		2,482		31,788
		\$	4,475,458	\$ 	\$	(291,531)	\$ 4,183,927	\$	294,459	\$	3,889,468

(A) In December 1991, the Penn Township Municipal Authority entered into a loan agreement with the Pennsylvania Infrastructure Investment Authority (PENNVEST) to borrow up to \$ 2,004,000 to construct and operate a sewer system within the Township.

The loan is secured by a security agreement covering future and existing accounts receivable and revenue, contract rights and general intangibles arising from the operations of the sewer system, assignments of rights and interest in all construction contracts, miscellaneous contracts, permits, licenses, etc., relating to system construction and a guarantee agreement executed by Penn Township. This guarantee obligates the Township to repay all outstanding principal and interest on the note should the Authority be unable to meet the obligation. The Township will not be responsible for direct principal or interest payments unless the Authority is in default. The loan bears interest at an annual rate of 1% and has a stated maturity date of December 1, 2021. The loan balance is \$ 170,919 at December 31, 2019.

(B) On November 14, 2004, the Penn Township Municipal Authority entered into a loan agreement with PENNVEST to borrow up to \$6,598,500 to refinance current debt and fund future projects. The loan is secured by a security agreement covering future and existing accounts receivable and revenue, contract rights and general intangibles arising from the operations of the sewer system, assignments of rights and interest in all construction contracts, miscellaneous contracts, permits, licenses, etc., relating to system construction and a guarantee agreement executed by Penn Township. This guarantee obligates the Township to repay all outstanding principal and interest on the note should the Authority be unable to meet the obligation.

NOTE 5 AUTHORITY DEBT/GUARANTEE AGREEMENTS (CONTINUED)

The Township will not be responsible for direct principal or interest payments unless the Authority is in default. The loan bears interest at an annual rate of 1% and has a stated maturity date of August 1, 2037. The loan balance is \$ 3,978,738 at December 31, 2019.

(C) In 2005, the Borough of Duncannon filed a request for arbitration of a dispute involving the Authority's share of the costs in replacing jointly owned sewer lines. On January 5, 2010, the Authority began making monthly payments of \$ 234 to the Borough of Duncannon to pay back \$ 60,000. The Authority will make monthly payments for 288 months at 1% interest to be paid in full in November 2032.

Future maturities on long-term debt of the Municipal Authority as of December 31, 2019 are as follows:

		PENN	IVEST		PENNVEST		ST		Duncanno	Total				
	Pri	incipal	Interest		Principal		Interest]	Principal	Interest	Principa	l		Interest
2020		85,033	1,32	0	206,944		38,841		2,482	331	294,45	9		40,492
2021		85,886	46	7	209,023		36,762		2,507	306	297,41	6		37,535
2022		-	-		211,122		34,662		2,532	281	213,65	4		34,943
2023					213,243		32,541		2,558	255	215,80	1		32,796
2024					215,386		30,399		2,583	230	217,96	9		30,629
2025 - 2029		-	-		1,109,822		119,098		13,311	754	1,123,13	3		119,852
2030 - 2034		-	-		1,166,701		62,222		8,297	128	1,174,99	8		62,350
2035 - 2037		-		_	646,497	_	8,919	_		-	646,49	7		8,919
	\$ 1	170,919	\$ 1,78	7	\$ 3,978,738	\$	363,444	\$	34,270	\$ 2,285	\$ 4,183,92	7	\$	367,516

NOTE 6 INTERFUND ACTIVITY

Due from/to other funds for the year ended December 31, 2019 were as follows:

	D	ue From	Due To
Parks and Recreation Fund	\$	1,050	\$ 4,784
Fire Tax Fund		17,845	17,905
Capital Reserve Fund		149,483	-
General Fund		22,689	 168,378
Total	\$	191,067	\$ 191,067

Parks and Recreation Fund due from General Fund: Amount owed due to deposits being made in the incorrect bank account.

Parks and Recreation Fund due to General Fund: Amount owed due to a deposits being made in the incorrect bank account.

Fire Tax Fund due to General Fund: Amount owed due to improper transfer of funds recorded.

Fire Tax Fund due from General Fund: Amount owed due to tax receipts not transferred to fire tax fund by yearend.

Capital Reserve Fund from General Fund: Amount owed for redemption of CD deposited into General Fund.

NOTE 7 PROPERTY TAXES

The Township's property tax is levied each February 1 on the assessed value as of January 1 as maintained by the County for all nonexempt real property located in the Township. The assessed value of the tax roll upon which the levy for the 2019 year was based amounted to \$198,214,700. The tax millage rate assessed for the year ended December 31, 2019, was 1.6644 mills (\$1.6644 per \$1,000 valuation) broken out between general (0.8144 mills) and fire (0.85).

Real estate taxes attach as an enforceable lien on property on January 1 and are levied on February 1. The taxes are collected by an elected tax collector who is paid 4% of the amount collected. Taxes paid through March 31 are given a 2% discount. Taxes paid after May 31 are charged a 10% penalty. Delinquent real estate taxes are collected by the County.

NOTE 8 PENSION PLAN

Plan Descriptions

Penn Township, Perry County, participates in the Pennsylvania Municipal Pension Trust, multiple employer system which covers all of the Township's full-time, non-uniformed and uniformed employees, and is administered by Pennsylvania State Association of Townships (PSATS). Unless otherwise indicated, the plan information in this note is provided as of the latest actuarial valuation as of January 1, 2019. Actuarial valuations are performed every two years.

Benefits

Uniform

All employees are eligible for benefits upon reaching age 65 and after having 20 years of full-time employment. The benefit consists of 1.5% of the final average monthly salary, averaged over the final 36 months of employment multiplied by the years of service at retirement. Employees are 100% vested in the plan after twelve (12) years of continuous service as an employee of the Township. The plan also includes disability and survivor benefits.

Non-Uniform

All employees are eligible for benefits upon the later of reaching age 65 and 7 years of service. Service may be continuous or interrupted. The benefit consists of 1.5% of the final average monthly salary, averaged over the final 36 months of employment multiplied by the years of service at retirement. Employees are 100% vested in the plan after seven (7) years of service.

Contributions

Uniform and Non-Uniform

The Township is required to contribute at an actuarially determined rate. Act 205 establishes the contribution requirements of the plan members and the Township. There is no maximum amount of funds the Township may contribute to the plan in a given year. Administrative costs, including investment services, custodial trustee and actuarial services are charged to the appropriate plan and funded from investment earnings. Plan members are not required to contribute to the plans.

NOTE 8 PENSION PLAN

Contributions (Continued)

Uniform and Non-Uniform (Continued)

The plans are also eligible to receive an allocation of state aid from the General Municipal Pension System State Aid Program which must be used for pension funding. Any funding requirements established by the MMO in excess of employee contributions and state aid must be paid by the Township in accordance with Act 205.

The Township's annual pension costs and contributions for each plan are as follows:

	Uı	niform	Noi	n-Uniform
Contribution rates (% of covered salary,				
including administrative costs):				
Township	Act	uarially	Ac	ctuarially
	dete	ermined	de	termined
Employees]	None		None
Annual pension costs	\$	-	\$	12,527
Contributions made	\$	1,482	\$	12,527

Plan Membership

Plan membership consisted of the following at December 31, 2019:

	Uniform	Non-Uniform
Active Plan Members Retirees and beneficiaries currently receiving	0	4
benefits	0	1
Terminated plan members entitled to but not yet receiving benefits	1	1_
	1	6

NOTE 8 PENSION PLAN (CONTINUED)

The following are summarized financial statements as of and for the year ended December 31, 2019 for the individual pension plans maintained by the Township.

		Uniform Non-Uniform			Tot	al Pension Funds

NOTE 9 OPERATING LEASE INCOME

The Township rents rooms in its building to various organizations. Rental income received from these leases in 2019 amounted to \$8,250.

NOTE 10 LITIGATIONS, COMMITMENTS AND CONTINGENCIES

The Township receives Liquid Fuels Tax funds from the State based on road mileage and population. These funds are to be maintained in the Highway Aid Fund and may only be used for specific purposes. These funds are also subject to audit by State agencies. Such an audit could result in the disallowance of certain expenditures and require reimbursement by the General Fund. In the opinion of the Township's management, such disallowances in the future, if any, will be minimal.

During the course of performing its duties for the general public that it serves; the Township may be subject to various threatened lawsuits and claims. There were no claims that management or legal counsel believes would have a material effect on the Township's financial position.

NOTE 10 LITIGATIONS, COMMITMENTS AND CONTINGENCIES (CONTINUED)

The Penn Township Municipal Authority and Penn Township have entered into an intermunicipal agreement with Duncannon Township and the Duncannon Township Authority which reserves sewage treatment capacity in the expanded Duncannon Wastewater Treatment facility. In addition, the Penn Township Municipal Authority pays the Duncannon Township Authority quarterly payments for their pro-rata share of certain operating expenses and a prorata share of other operating costs based on flow. During 2019, \$86,719 was paid by the Authority under this agreement.

The Township has commitments for vested unused sick and vacation pay for employees upon retirement or leaving employment. The amounts of these potential commitments at retirement are \$ 977 and \$ 4,176, respectively, at December 31, 2019.

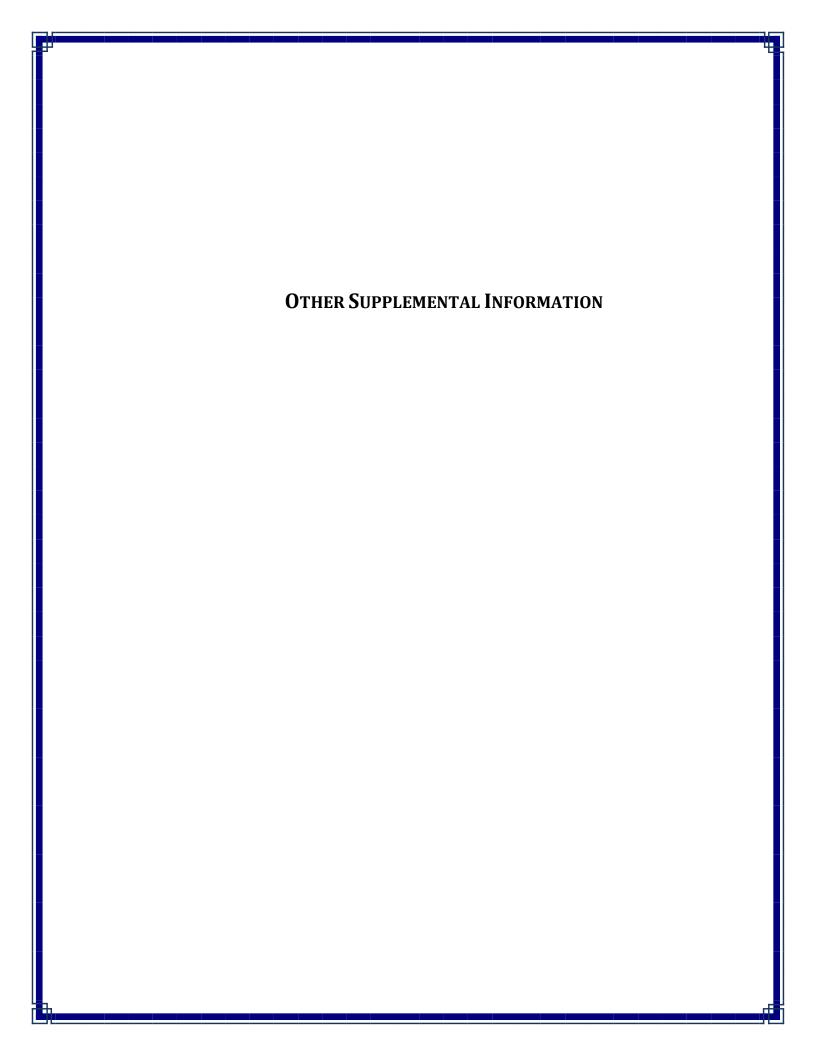

NOTE 11 RISK MANAGEMENT - INSURANCE

The Township's risk management activities are recorded in the general fund and are related to administering employee life, health, property and liability, worker's compensation and unemployment insurance programs. Significant losses are covered by commercial insurance for all major programs. For these insured programs, there have been no significant reductions in settlement coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

NOTE 12 SUBSEQUENT EVENTS

The COVID-19 outbreak in the United States and around the world has caused business disruption through mandated and voluntary closings of many business throughout our community. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration and extent of the economic impact. Therefore, it is reasonable to expect that some of the Township's revenue sources derived from various tax revenues and other revenue sources could be impacted.

In addition, as a result of the COVID-19 pandemic, investment markets have seen a significant decline in market value which has impacted the Township's pension investment portfolio.
